

I am a XM Satellite customer and enjoy the local programming offered that allows me to obtain local news and weather. XM Radio has extended my choices and is not geographically limited as is regular AM and FM radio. Satellite radio provides variety and quality that are not available elsewhere. Since I pay for these services it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we as subscribers demand and deserve.  
Sincerely,

Peter D. Bennett
